```c
#include <stdio.h>

int main() {

    float applesFromRaghu = 6.5;
    float applesFromSheenu = 6.5;
    float applesFromAkash = 6.5;

    float totalApples = applesFromRaghu + applesFromSheenu +
applesFromAkash;
    printf("Raju has %.2f apples in total.\n", totalApples);

    return 0;
}
```
